

## **JSCAPE Awarded GSA Contract**

*Leading provider of Java and .NET Internet components announced award of five-year Information Technology schedule contract.*

Miami, FL (PRWEB) November 3, 2006 -- JSCAPE, a leading provider of Java and .NET Internet components, today announced it has been awarded a five-year Information Technology schedule contract (GS-35F-0022T ) by the U.S. General Services Administration (GSA). Under the contract award, the GSA will now make available to all federal agencies JSCAPE's portfolio of secure network communications and file transfer solutions.

The GSA approval represents a significant step in JSCAPE's strategy to continue its growth as a preferred vendor to government agencies. Several federal, state and local governments currently use JSCAPE products.

"JSCAPE recognizes this is a vote of confidence from the U.S. government and we are confident this will enable us to continue to expand our presence in the US government, while also improving opportunities for our existing government clientele," said Van Glass, CEO and President.

### About JSCAPE

Since 1999, JSCAPE has focused on developing software components and server solutions for securing file transfers and network communications. JSCAPE offers secure file transfer and networking components for both Java and Microsoft .NET development environments, as well as secure file transfer servers for Linux, Solaris, Windows and Mac OS X platforms. JSCAPE software is in use by a wide variety of businesses and government agencies in more than 50 countries worldwide.

### About GSA

The General Services Administration (GSA) Schedule is the standard contract that outlines all terms and conditions between a contractor and the U.S. Government. The GSA is the purchasing and management agent of the U.S. Government, while the Federal Supply Service of the GSA operates the GSA Schedules program. All agencies of the federal government may use the GSA schedule contract to fill their requirements.
