

Pratt Institute

Customer

Founded in 1887, Pratt Institute is a specialized, private college in New York City with campuses in Manhattan, Brooklyn and also Utica, New York. Pratt is one of the leading art schools in the US and offers programs in art, architecture, fashion design, illustration, interior design, digital arts, creative writing, library science and other areas.

Challenge

Pratt Institute needed a secure file transfer application that could integrate with its existing portal environment and provide both faculty and students secure web based file transfers.

Pratt Institute had several functional and technical requirements requirements for this application which included:

- Secure file transfer
- HTTP/S based file transfer
- Integration with existing web portal software
- Little or no user training needed
- Ability to service over 6000 users

Solution

After a thorough evaluation Pratt Institute chose to deploy several Secure FTP Applet instances to multiple web server environments.

Results

Using Secure FTP Applet Pratt Institute was able to provide its users quick and easy access to files without having to train users or install any complicated file transfer software.
